

# PRODUCT ADVISORY

PUNCH P3 SHALLOW WOOFER BREAK-IN

PUNCH

## ATTENTION

Due to the

## ATTENTION

Due to the design of the Rockford Fosgate P3 Shallow subwoofers, a 24-48 hour "break-in" period is required to allow for maximum excursion and low frequency extension. The shallow woofers suspension is intentionally designed to optimize once the internal components are exercised under normal music listening conditions. Rockford Fosgate bass is now available in a much smaller space!!
