

For over 40 years, Rockford has been a leader in the audio industry. We started with an idea, that sparked a movement and ignited a following. It was in that moment, that Rockford was born. Today, Rockford Fosgate makes lifestyle products that deliver THE audio experience in cars, boats, motorcycles, and recreational vehicles. It's not just a company - we are a team of people who are audio fanatics. We have a reputation for making products with our customers' needs and wants in mind. It's our passion and our fierce customer loyalty that sets us apart. Made for fanatics by fanatics...This is Rockford.

JOB TITLE: Acoustic Technician

This is an integral role within the loudspeaker engineering team and will provide direct support to transducer design and system tuning engineers. This role is responsible for taking acoustic and electrical measurements using industry-leading test equipment. It also requires compiling test results and creating clear and detailed reports that will help drive key product decisions.

KEY RESPONSIBILITIES:

- Perform acoustic performance measurements on loudspeakers and vehicle audio systems.
- Setup and monitor acoustic reliability tests (thermal, mechanical, acoustic, etc.).
- Gather results and generate clear, concise test reports using Microsoft Excel, Word, and PowerPoint.
- Work closely with acoustic engineering team to develop and execute measurements and experiments.
- Continuously look for methods to improve testing efficiency and accuracy.
- Support loudspeaker engineers with test equipment calibration and maintenance.

REQUIRED SKILLS/QUALIFICATIONS:

- Strong team player with positive attitude and willingness to learn and collaborate in group settings.
- Excellent written and verbal technical and interpersonal communication skills.
- Self-starter with strong organizational skills and attention to detail.
- Ability to effectively execute multiple projects concurrently in a fast-paced deadline driven environment.
- Proficiency in MS Word, PowerPoint and Excel.
- Experience with basic test equipment (DMM, Oscilloscope, Signal Generator, etc).
- A disciplined testing methodology.

DESIRED SKILLS (OPTIONAL):

- Knowledge of acoustics and transducers.
- Background in electrical engineering, mechanical engineer or equivalent field.
- Experience using Klippel test equipment.
- Experience using Audio Precision test equipment.
- Experience in AV setup or vehicle audio system installation.

Interested applicants, send resume and cover letter to jobs@rockfordcorp.com. This on-site position is based in Tempe, Arizona. No relocation assistance provided.
